Hi Chris,

The wording in the table missed out a word – it should say ‘The contents are not pyrophoric’!

Note also please that the targets are irradiated at two locations, one facility intends to ship intact targets in their Inconel housing, the other will extract the thorium targets from their housing and sent them in the bottles.

Kind regards,

Alex

Physical form of radioactive material	Solid
Chemical form of radioactive material	Thorium as metal, Inconel housing as metal alloy
Pyrophoric contents	The are not pyrophoric.
Product containers	A product container such as a plastic, glass or metal container may be used to carry the thorium target which may
