1. The first part of the report is a general introduction to the subject of the study. It discusses the importance of the study and the objectives of the research.

2. The second part of the report is a detailed description of the methodology used in the study. It includes information about the sample size, the data collection methods, and the statistical analysis techniques.

3. The third part of the report is a discussion of the results of the study. It compares the findings with the previous research and discusses the implications of the study.

4. The fourth part of the report is a conclusion and a list of references. The conclusion summarizes the main findings of the study, and the references list the sources of information used in the study.

5. The fifth part of the report is a list of appendices. These appendices contain additional information that is related to the study but is not included in the main body of the report.

6. The sixth part of the report is a list of figures and tables. These figures and tables provide a visual representation of the data and the results of the study.
