Gentlemen:

On February 6, 1973, I sent you a number of comments from Federal and State agencies concerning the Draft Environmental Statement for Shearon Harris Nuclear Power Plants, Units 1, 2, 3 & 4. Enclosed are additional comments. Please include these comments in your response of March 15, 1973.

Sincerely

Gentlemen:

As specified in the Council on Environmental Quality Guidelines, we have requested Federal, State, and local agencies to comment in connection with the Draft Environmental Statement for the Shearon Harris Nuclear Power Plant, Units 1, 2, 3, and 4.

The enclosure to this letter contains a list of comments received to date and transmitted herewith.

Please review these comments and submit any appropriate responses by February 26, 1973. Your reply should consist of three signed originals and forty-seven additional copies.

It would be helpful to continued processing of our assessment of the environmental impact for this plant if you would send three additional copies of your reply directly to our technical team at Battelle Northwest Laboratory (ATTN: Mr. Nelson).

Sincerely,

Original signed by

11. *Chrysomelidae* (10 species)

Figure 1. A schematic diagram of the experimental setup. The subject is seated in a chair, viewing a video screen. The screen displays a target (a small circle) and a starting point (a larger circle). The subject's hand is positioned at the starting point. The distance between the starting point and the target is labeled as d . The subject is instructed to move their hand from the starting point to the target.

100

1. *Staphylococcus aureus* (10⁶ CFU/g)

Figure 1. The effect of the concentration of the *Agrobacterium* suspension on the transformation efficiency of *Agrobacterium* strains. The number of transformed cells was determined by the number of colonies obtained on the selective medium. The results are the mean of three independent experiments. Error bars represent the standard deviation.

1. The first group of people who are interested in the study of the history of the world are the historians. They are the people who study the past and write about it. They are the people who tell us what happened and why it happened. They are the people who help us to understand the world and ourselves.

14. 1990

$\frac{1}{n} \sum_{i=1}^n x_i = \bar{x}$

36

1. The first group of people who are interested in the study of the history of the United States are the people who are interested in the history of the United States.
