DOCKET NO. 50-228/LICENSE NO. R-98.

Request for 10 CFR 170.11 and 170.11 Waivers/Exemptions

Ladies and Gentlemen:

I am requesting 10 day extension to respond to the July 16 2018 letter requesting additional information, I am have having a difficult time finding the narrative that support the regulations that you cite in the communication. The basis for the cited regulations are important to generate a comprehensive and effective response. While during a recent telephone conversation, it was suggested that I back track the historical entries in the federal registry; this effort thus far has not located the needed narrative. Your office is familiar with these regulations and most likely can cite the documents directly that describe their original intent.

Should you have any questions or require additional information regarding this submission, please contact AO President David M. Slaughter, Ph.D. at (801) 631 5919 or dmsraven@gmail.com

I declare under penalty of perjury that the statements made are correct and truthful.

Sincerely yours,

David M. Slaughter, Ph.D
President and Reactor Administrator
