Purpose: The purpose of this meeting is for the NRC staff to inform stakeholders of a proposed new technical guidance document, NUREG-2224, "Spent Fuel Storage and Transportation of High Burnup Spent Nuclear Fuel." On August 9, 2018, the NRC published in the *Federal Register* a request for public comment on this draft NUREG (<https://www.federalregister.gov/documents/2018/08/09/2018-16994/dry-storage-and-transportation-of-high-burnup-spent-nuclear-fuel>). The NRC is asking for comment on specific areas of the draft report; however, comments are invited on any areas of the draft report.

Stakeholders will have an opportunity to ask questions of, or seek clarification from, the NRC staff to facilitate the review of the document and the provision of written comments during the comment period, which ends on September 24, 2018. The NRC staff will not be accepting formal comments at this meeting. Stakeholders may submit written comments on draft NUREG-2224 through the formal process outlined in the August 9, 2018, *Federal Register* notice.

Determinations on requests for reasonable accommodations will be made on a case-by-case basis.
