Subject: R.E. Pierson Construction Company, Inc., Request for Additional Information Concerning Application for a License Amendment, Control 609580
Date: Thursday, August 16, 2018 11:11:00 AM

Dear Mr. Russell,

This is in reference to your letter received August 3, 2018, requesting for amendment to Nuclear Regulatory Commission License No. 29-30279-01, Docket No. 03034072. In order to continue our review, we need the following additional information:

1. You have requested to become the Radiation Safety Officer (RSO) on the license, but did not provide evidence for your training and experience. [NUREG-1556, Volume 1, Rev. 2](#), "Consolidated Guidance About Materials Licenses, Program-Specific Guidance About Portable Gauge Licenses," Section 8.7.1, states to provide documentation demonstrating that the proposed RSO is qualified by training and experience (e.g., certificate of completion of the RSO's course and/or the authorized user's course). Please provide documentation that you are qualified by training and experience to be the RSO.
2. You have provided a cell phone number on your application. Please confirm if this cell number is a company cell phone number and not a private number. If it is a private number, please do not submit to the NRC in any future correspondence.
3. The protocol for writing licenses has changed and items 6.A. through 9.B will appear differently. Additional specific information about your gauges is needed to correctly write the license. You had submitted in your application that you have two Troxler Electronics Laboratory model 3400 Series; one Troxler Electronic Laboratories model 4640B; and one Humboldt Scientific, Inc. Model 5001 portable gauge. Please confirm that you wish to be licensed for this amount of material under this license. If not, then please provide the manufacturer, model number, and the number of gauges that you wish to possess under the license.

We will continue our review upon receipt of this information. Please reply to my attention at the Region 1 Office (Address below) and refer to Mail Control No. <No>. If you have technical questions regarding this letter, please call me at (610) 337-5366.

Your reply must be an originally signed and dated letter. The letter may be scanned and submitted as a pdf document attached to an email; or it may be transmitted by facsimile to (610) 337-5269; or it may be sent by regular mail. If we do not receive a reply from you within 30 calendar days from the date of this e-mail, we will assume that you do not wish to pursue your application OR amendment request.

Please respond by e-mail to acknowledge that you have received the e-mail request for additional information.

Region 1 Office Mailing Address: Licensing Assistance Team, US Nuclear Regulatory Commission Region I, 2100 Renaissance Boulevard, Suite 100, King of Prussia, PA 19406-2713.
