Subject: [External_Sender] COMMENT TO the NRC on Docket ID NRC-2018-0052: Holtec International's HI-STORE Consolidated Interim Storage Facility Project

Dear Nuclear Regulatory Commission Staff:

Reject Holtec International's application for a Consolidated Interim Storage Facility for high level nuclear waste because consolidated interim storage sites are NOT allowed under US federal laws to the extent the Department of Energy and US taxpayers are expected to own and transport the waste. Holtec's Consolidated Interim Storage Facility would be an ILLEGAL DUMP.

Discard the Environmental Report done by Tetra Tech for Holtec. For 20 years Tetra Tech has been falsifying radiation monitoring data, deliberately spreading radioactive waste to previously clean places, using unqualified workers to supervise radioactive cleanup efforts, and firing whistleblowers at Hunters Point nuclear site. This is according to the US Navy, EPA, and California Health Department. Tetra Tech cannot be trusted.

The Holtec site has valuable industries including pecan, cattle ranches, dairy, and other farming interests that would be threatened by the site. New Mexico already has abandoned uranium mines, the Manhattan Project, Trinity Test, and plutonium contamination in rivers downstream from Los Alamos!

None of today's certified waste containers are designed for transport. These containers cannot be monitored for leaks. NRC must analyze the consequences of the waste remaining indefinitely at the site. Holtec proposes to consolidate up to 173,600 metric tons of high-level waste to New Mexico to store for 40-120 years!

Please reject Holtec International's application for a Consolidated Interim Storage Facility in New Mexico.

Mr. Peter Jones
