

SAFETY INSPECTION REPORT AND COMPLIANCE INSPECTION

1. LICENSEE/LOCATION INSPECTED: Leidos, Inc. 13397 Lakefront Drive Suite 100 Earth City, MO 63045 REPORT NUMBER(S) 2018001		2. NRC/REGIONAL OFFICE Region III U. S. Nuclear Regulatory Commission 2443 Warrenville Road, Suite 210 Lisle, IL 60532-4352	
3. DOCKET NUMBER(S) 030-37229	4. LICENSE NUMBER(S) 24-32591-01	5. DATE(S) OF INSPECTION 8/14/18	

LICENSEE:

The inspection was an examination of the activities conducted under your license as they relate to radiation safety and to compliance with the Nuclear Regulatory Commission (NRC) rules and regulations and the conditions of your license. The inspection consisted of selective examinations of procedures and representative records, interviews with personnel, and observations by the inspector. The inspection findings are as follows:

- ☒ 1. Based on the inspection findings, no violations were identified.
- ☐ 2. Previous violation(s) closed.
- ☐ 3. The violation(s), specifically described to you by the inspector as non-cited violations, are not being cited because they were self-identified, non-repetitive, and corrective action was or is being taken, and the remaining criteria in the NRC Enforcement Policy, to exercise discretion, were satisfied.

Non-cited violation(s) were discussed involving the following requirement(s):

- ☐ 4. During this inspection, certain of your activities, as described below and/or attached, were in violation of NRC requirements and are being cited in accordance with NRC Enforcement Policy. This form is a NOTICE OF VIOLATION, which may be subject to posting in accordance with 10 CFR 19.11.
(Violations and Corrective Actions)

Statement of Corrective Actions

I hereby state that, within 30 days, the actions described by me to the Inspector will be taken to correct the violations identified. This statement of corrective actions is made in accordance with the requirements of 10 CFR 2.201 (corrective steps already taken, corrective steps which will be taken, date when full compliance will be achieved). I understand that no further written response to NRC will be required, unless specifically requested.

☒ Main Office Inspection

Next Inspection Date: 08/14/2020

☐ Field Office Inspection☐ Temporary Job Site Inspection**PROGRAM SCOPE**

This was a routine, unannounced inspection of a company that was licensed to provide a variety of services, including but not limited to, instrument calibration, sealed source leak-testing, sample analysis, and characterization, decommissioning and remediation activities. The licensee was in possession of several exempt quantity check/reference sources which were stored in a locked cabinet, and performed licensed activities periodically through each calendar year.

PERFORMANCE OBSERVATIONS

The inspector toured the licensee's equipment and source storage room, and observed the RSO conduct a physical inventory of several check/reference sources and verified that each source was accounted for. The RSO described the licensee's training program for occupational workers, and the inspector reviewed records of initial and annual radiation safety training.

The inspector conducted interviews of the RSO and Alternate RSO about the licensee's radiation protection program, possession and calibration of radiation survey instrumentation, use of personal dosimetry as applicable, training program, and the performance of periodic surveys of the sealed source storage cabinet and storage room. The RSO stated that the licensee is planning to amend its NRC license to remove authorization for decommissioning and remediation activities, possibly downgrading their licensed activities.

No violations or NRC requirements were identified.
