Subject: Inventory/Leak test of sources moved from cardiology center

Discussion: Ms. Long confirmed that the 2nd item on the leak test report for the cardiology center was the Co-57 flood source and that the identifier had been moved inadvertently to another page. Ms. Long also confirmed that the inventory at the Hospital included the inventory of the cardiology sources that were actually located at the cardiology center until the last inventory on 6/8/18. All sources have been moved to the Hospital as of 6/8/18.
