WASHINGTON, D.C. 20555-0001

MEMORANDUM TO: Dr. Brett M. Baker
Assistant Inspector General for Audits

FROM: Maureen E. Wylie */RA/ Ben Ficks (for)*
Chief Financial Officer

SUBJECT: STATUS OF RECOMMENDATION: AUDIT OF THE NUCLEAR
REGULATORY COMMISSION'S BUDGET EXECUTION
PROCESS (OIG-13-A-18)

The status of our response to a resolved recommendation is provided as requested in your July 20, 2017, memorandum entitled, "Status of Recommendation: Audit of NRC's Budget Execution Process (OIG-13-A-18)." The status of Recommendation Number 3 remains resolved as indicated below.

Recommendation 3

Enforce the use of correct budget object codes (BOC).

Status: Ongoing

BOC Correction Capability: The Office of the Chief Financial Officer/Division of the Controller (DOC) continues to work with the Office of Administration/Acquisition Management Division (AMD) to develop an automated process whereby BOCs can be corrected in the Strategic Acquisition System (STAQS), then carried over through the interface to the Financial Accounting and Integrated Management Information System (FAIMIS). The DOC currently conducts routine reviews of the assignment of BOCs and identifies those that need correction. AMD staff are working with Compusearch, the developer of the STAQS software, to develop this automated solution in coordination with CGI, the FAIMIS software developer. Due to competing priorities there is now a delay until the first quarter of FY 2019.

Target Completion Date: 1st Quarter, FY 2019
