

Eastern Indigo Snake (*Drymarchon couperi*) M-Rc Survey Form

Capture Date: 6-20-13

Personnel: Mario Aldecoa

Capture Time: 10:56am

Capture Location (Lat/Long or UTM, specify DATUM with UTM):

N 25°20'51.2" W 80°20'13.1"

Processing Date:

Snout-Vent Length (cm):

126.8cm

Tail Length (cm):

25.6cm

Weight (kg):

Sex:

New Capture or Recapture (circle one) Yes

PIT tag #:

AVID 076 286 037

inserted on right side

Scale Clip #: L1R2

Clip Saved (Y/N):

Shedding (or cloudy eyes): clear

Skin Lesions:

Bite Marks or Injuries:

Scar on left side about 86cm down

Weather When Captured (air temp, cloud cover, precipitation, etc.):

90°F, cloud cover high,

Habitat:

on Road entering mix vegetation, Australian pine.

Behavior:

possibly Basking

Comments:

Eastern Indigo Snake (*Drymarchon couperi*) M-Rc Survey Form

Capture Date: 12-18-13

Personnel: Mario Aldecoa

Capture Time: 9:30 am

Capture Location (Lat/Long or UTM, specify DATUM with UTM):

N 25 2107.6  
W 080 2035.8

Processing Date:

12-18-13

Snout-Vent Length (cm):

155.4

Tail Length (cm):

33.5

Weight (kg): 2.4

Sex:

New Capture or Recapture (circle one)

PIT tag #:

AVID\*076\*317\*100

Scale Clip #: L-3 R-4

Clip Saved (Y/N):

Shedding (or cloudy eyes):

Skin Lesions:

Bite Marks or Injuries:

Weather When Captured (air temp, cloud cover, precipitation, etc.):

25°C, cloud cover clear, sunny. Night temp 55°F

Habitat:

on Road entering mix vegetation, poison wood, Australian  
pine

Behavior:

crossing Rd slowly in sunny spot.

Comments:

previous nights temp was cool in the 50's. First small cold  
snap in a while. Captured another Indigo about 50 ft  
East!

Eastern Indigo Snake (*Drymarchon couperi*) M-Rc Survey Form

Capture Date: 12-18-13

Personnel: Mario Aldean

Capture Time: 9:35 am

Capture Location (Lat/Long or UTM, specify DATUM with UTM):

N 25 2106.7

W 080 2033.6

Processing Date:

12-18-13

Snout-Vent Length (cm):

131.0

Tail Length (cm):

27.1

Weight (kg): 1.2

Sex:

New Capture or Recapture (circle one)

PIT tag #:

AVID\*076\*291\*263

Scale Clip #: L-2 R-3

Clip Saved (Y/N):

Shedding (or cloudy eyes):

Skin Lesions:

Bite Marks or Injuries: L Ventral scales 4 and 5 have scar.

Weather When Captured (air temp, cloud cover, precipitation, etc.):

25°C, clear and sunny.

Habitat:

Mix veg, Australian pine, poison wood, sea grapes

Behavior:

Basking in center of road.

Comments:

Captured about 50m from another Indigo!!

Eastern Indigo Snake (*Drymarchon couperi*) M-Rc Survey Form

Capture Date: 2-13-14

Personnel: Mario Alderson

Capture Time: 12:50pm

Capture Location (Lat/Long or UTM, specify DATUM with UTM):

Land U access road. N 25° 25' 43.0" W 080° 20' 17.1"

Processing Date: 2-13-14

Snout-Vent Length (cm): 117.2cm

Tail Length (cm): 28.0cm

Weight (kg): 0.7(kg)

Sex:

New Capture or Recapture (circle one)

PIT tag #:

AVID\*076\*295\*049

Scale Clip #: L-4 R-5

Clip Saved (Y/N): ☒ Y

Shedding (or cloudy eyes): No

Skin Lesions:

Bite Marks or Injuries: Has kinks at the end of its tail.

Weather When Captured (air temp, cloud cover, precipitation, etc.):

25°C Sunny and breezy. Temps expected to lower into the 50°F tonight

Habitat: Crossing Land U access road into  
buttonwood pond by road.

Behavior: Crossing rapidly over road

Comments: The location of capture is a busy road that is currently under some temporary construction. A vehicle was stopped in front of the snake to allow it to pass as Mario happened to be passing by as well and captured the snake. Released south of cooling canals.
