

UNITED STATES
NUCLEAR REGULATORY COMMISSION
WASHINGTON, D.C. 20555-0001

September 11, 2018

Mr. Gerald Bischof
Senior Vice President – Nuclear Operations
and Fleet Performance
Virginia Electric and Power Company
Innsbrook Technical Center
5000 Dominion Blvd.
Glen Allen, VA 23060-6711

SUBJECT: NORTH ANNA AND SURRY INDEPENDENT SPENT FUEL STORAGE
INSTALLATIONS – TEMPORARY MODIFICATION OF IMPLEMENTATION OF
U.S. NUCLEAR REGULATORY COMMISSION ORDER EA-02-104

Dear Mr. Bischof:

By letter dated September 10, 2018, Virginia Electric and Power Company (Dominion) requested a one-time modification to its implementation strategy for specific interim compensatory measures (ICMs) listed in the U.S. Nuclear Regulatory Commission (NRC) Order EA-02-104 pertaining to the North Anna and Surry Independent Spent Fuel Storage Installations (ISFSIs). Dominion indicated that due to the predicted weather conditions and the concern for security personnel safety, it might be necessary to modify the implementation strategy for several of the ICMs contained in the Order. Specifically, Dominion proposed a one-time temporary modification to its implementation strategy for ICMs C.1.b, C.3.a(1), and C.3.d of the Order.

The NRC concluded that Dominion's proposed one-time modification to the implementation strategy for the ICMs contained in NRC Order EA-02-104 for the North Anna and Surry ISFSIs reflects good cause given the anticipated weather conditions, and is therefore acceptable. We understand, per Dominion's commitment in its September 10, 2018, letter referenced above, that Dominion will report any suspension of security measures related to the Surry ISFSI in accordance with the provisions of Title 10 of the *Code of Federal Regulations* 73.71. The NRC also understands that the contingency plans proposed by Dominion will no longer be implemented once the severe weather condition has passed.

Sincerely,

/RA/

Marc L. Dapas, Director
Office of Nuclear Material Safety
and Safeguards

Docket Nos. 72-2 and 72-16
