ALLOWING INTERIM OPERATION]*

Dear [senior officer name]:

In accordance with Section 185b. of the Atomic Energy Act of 1954, as amended (AEA), and Title 10 of the *Code of Federal Regulations* (10 CFR) Section 52.103(g), the U.S. Nuclear Regulatory Commission (NRC) has made the finding that all the acceptance criteria are met for the inspections, tests, analyses, and acceptance criteria (ITAAC) included in Appendix C to combined license [license number] for [plant name]. This finding is effective as of [date]. *[If interim operation is allowed, add: Also, the NRC has determined in accordance with AEA Section 189a.(1)(B) and 10 CFR 52.103(c) that there is reasonable assurance of adequate protection of the public health and safety during a period of interim operation. Based on this determination, the NRC has issued an order allowing interim operation that is effective as of [date].]*

Therefore, in accordance with 10 CFR 52.103(g) *[if interim operation is allowed, add: and 10 CFR 52.103(c)]*, the [licensee] may now operate the facility in accordance with combined license [license number] *[if interim operation is allowed and additional terms and conditions are included, add: and the terms and conditions in the order allowing interim operation]*. The ITAAC in COL [license number] no longer constitute regulatory requirements.

Enclosed is the NRC's finding that the acceptance criteria are met *[if interim operation is allowed, add: and the order allowing interim operation]*. The basis for the 10 CFR 52.103(g) finding is documented in the 10 CFR 52.103(g) Basis Document for [plant name] and can be found in the NRC's Agencywide Documents Access and Management System (ADAMS) at Accession Number [ADAMS ML number]. The Basis Document can also be found on the NRC's public web site. *[If interim operation is allowed, add: The basis for the NRC's determination that there is reasonable assurance of adequate protection of the public health and safety during a period of interim operation is in the [Commission Order], dated [date].]*
