Sheryl,

The email is included at the accession number below, in a licensing package that was current at the time. The contents of the email are also shown below. Please add program code 11300 to the license.

Thanks,
Betsy

Mr. DeLong,

During a recent review of all licenses in the NRC to confirm that authorized materials were being assessed the correct fees, we identified that your license has never been coded to assess fees for the source material listed on your license. During the past year, the annual fee for the source material was \$9400. I do need to add the program code 11300 in Fee Category 2F to your license file. However, if this material is not needed, you could request to amend the license to remove that authorized material.

Your license files also are missing several program codes for SNM, but you are already assessed a fee for SNM in the same fee category, so your fees for SNM will not change.

Please feel free to contact me if you have any questions.

Betsy
