TENNESSEE VALLEY AUTHORITY

CHATTANOOGA, TENNESSEE 37401

September 15, 1975

Mr. Daniel R. Muller
Assistant Director for Environmental Projects
U.S. Nuclear Regulatory Commission
Washington, DC 20555

Dear Mr. Muller:

The purpose of this letter is to file the monthly fish impingement report for August 1975 for the Browns Ferry Nuclear Plant units 1 and 2 (Facility Operating Licenses DPR-33 and DPR-52) as required by the environmental technical specifications. Weekly counts were conducted and the appropriate weighting factors applied for August 1975. The data sheets with calculated fish impingement estimates are enclosed.

The August 26 and 27, 1975, count includes impingement for CCW pump 1C. This pump was operated to allow maintenance related to CCW pump 1B. Since CCW pump 1C was not included in the bimonthly weighting factors, a factor was derived from comparisons with the adjacent CCW pumps and used for this count.

Very truly yours,

J. E. Gilleland

Assistant Manager of Power
