Attention: Mr. Victor Stello, Jr., Director
Division of Operating Reactors
U.S. Nuclear Regulatory Commission

Dear Mr. Stello:

File Cy

The purpose of this letter is to file the fish impingement report for the Browns Ferry Nuclear Plant units 1, 2, and 3 (Facility Operating Licenses DPR-33, DPR-52, and DPR-68) for the second quarter of 1977 as required by the environmental technical specifications.

During the week of April 11-16, 1977, the screens were operated continuously to prevent high head losses across the screens. The total number of fish impinged over a 24-hour period were collectively sampled from all screens simultaneously.

Very truly yours,

J. E. Gilleland
