November 1, 1976

Director of Nuclear Reactor Regulation  
Attention: Mr. Victor Stello, Jr., Director  
Division of Operating Reactors  
U.S. Nuclear Regulatory Commission  
Washington, DC 20555

Regulatory Docket File

Dear Mr. Stello:

The purpose of this letter is to file the fish impingement report for the Browns Ferry Nuclear Plant units 1, 2, and 3 (Facility Operating Licenses DPR-33, DPR-52, and DPR-68) for the third quarter of 1976 as required by the environmental technical specifications. A report dated August 13, 1976, was submitted including July counts which were conducted in accordance with the Browns Ferry environmental technical specifications in effect before August 20, 1976, for units 1 and 2. The August counts were also conducted under the pre-August 20, 1976, technical specifications for units 1 and 2. The July and August counts for unit 3 were conducted in accordance with the unit 3 environmental technical specifications as issued on July 2, 1976.

As of August 20, 1976, the Browns Ferry Nuclear Plant environmental technical specifications for units 1 and 2 are in agreement with those for unit 3 so that the data included for the month of September is presented in the same format for all three units.

Very truly yours,

*J. E. Gilleland*

J. E. Gilleland  
Assistant Manager of Power
