Subject: Draft Safety Evaluation for PWROG-15060, "Pump Suction Gas Accumulation Operability Criteria Guidance"

Dear Mr. Holonich:

The PWROG will be transmitting comments to the NRC on the Draft Safety Evaluation (DSE) for PWROG-15060, "Pump Suction Gas Accumulation Operability Criteria Guidance" formally in the near future.

Therefore, the PWROG requests that the NRC staff hold the review of PWROG-15060 in abeyance and not issue the Final Safety Evaluation for PWROG-15060 until the comments on the DSE have been addressed by the NRC.

The PWROG also requests that the NRC issue a revised DSE for PWROG-15060 for PWROG review prior to issuing the Final Safety Evaluation for PWROG-15060. Please feel free to contact the PWROG to discuss any questions on the comments on the DSE for PWROG-15060 after they have been formally transmitted to the NRC.

If you have any questions regarding this communication, please contact me at (805) 545-4328.

Sincerely,

Ken Schrader
PWR Owners Group Chairman and COO
