

October 30, 2018

Title: Pre-application Teleconference with NextEra Energy Point Beach to discuss high winds Probabilistic Risk Assessment (PRA) license amendment.

Date(s) and Time(s): November 15, 2018, 01:00 PM to 03:00 PM

Location: NRC One White Flint North, 07B-06
11555 Rockville Pike
Rockville, MD

Category: This is a Category 1 meeting. The public is invited to observe this meeting and will have one or more opportunities to communicate with the NRC after the business portion of the meeting but before the meeting is adjourned.

Purpose: The purpose of this pre-submittal teleconference with the NRC staff is to discuss a risk-informed license amendment request to credit the Point Beach plant high winds PRA. The intent of this submittal would be to modify the station's current license basis to credit the high winds PRA as basis for eliminating the spectrum of high wind events as a hazard for the plant due to the small change in risk. This LAR, would provide the basis for resolving recently identified non-conformances with the station's current license basis.
