Ty,

I have completed my acceptance review of MIT's 2018 Financial Test Certification for its Self-Guarantee (SG). No major deficiencies were identified, therefore, MIT's SG submission is acceptable for a detailed review.

Please let me know if you have any questions or concerns.

Regards,

Reggie

Hopefully you found the MIT FA package on your desk. I left it there at the end of the day last Wednesday. Chris had told me you would be the one to work the review. I have been awaiting an EPID to assign to the RWR. I will likely send the RWR later today and follow up with the EPID. I need to get this thing going. I have docketed the submittal and I'll send that along with the RWR.

Hi Ty,

More than likely I will be doing the review. It's best to send the request to my supervisor Chris McKenney who will probably assign it to me.

Thanks,

Reggie

Subject: MIT FA Update

Hi Reggie,
I received a call that MIT is sending in their annual financial assurance update. I'll have to process it into ADAMS and put together a work request, but would you be able to do the review? I could get this to you next week. Please let me know.
Thanks

Ty
