Re: Docket 50-255
License DPR-20
Palisades Plant

Gentlemen:

By letter dated December 11, 1974 from Mr. Purple, the Directorate of Licensing staff requested that we adopt Standard Technical Specifications as they relate to installed filter systems.

Consumers Power Company has attempted to carry out this request. Draft revisions of Technical Specifications changes were prepared and submitted for review by our Safety and Audit Review Board (SARB) in anticipation of submittal by February 3, 1975. However, SARB requested additional information prior to their completing the review.

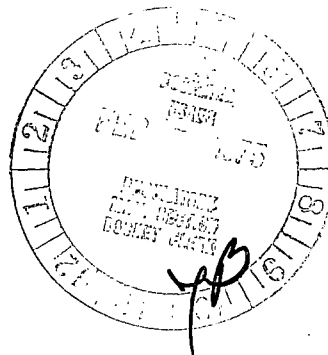

The requirement for additional information will necessitate a further delay in our submittal. We now estimate that the submittal will be ready by about March 3, 1975.

Yours very truly,

DAB/mel

Ralph B. Sewell
Nuclear Licensing Administrator
