United States Nuclear Regulatory Commission
Washington, D.C. 20555

Gentlemen:

I represent the Mapleton Intervenors, an environmental group.

Pursuant to the Freedom of Information Act, I hereby respectfully request permission for Mr. Steve J. Gadler, P.E., of Saint Paul, Minnesota, technical advisor of said group, to have an opportunity to inspect and copy, if he so desires, all records whether or not prepared by the N.R.C. or its predecessor, the A.E.C., relating to the disposal (whether intentional or accidental) by dumping into Lake Michigan or discharge into a river of any radio-active material generated by, used in, or produced as a by-product or released as a radio-active gas into the atmosphere in connection with any operation of the Big Rock and Palisades Nuclear Plants operated here in Michigan by the Consumers Power Company.

This request is to include waste products, all matters relating to any fines, suggestions, criticisms, etc. directed to Consumers Power Company by the N.R.C. and/or the A.E.C.

The types of radio-active material of which this information is sought include, but are not limited to, the following:

- a. Any core/cores reactor/reactors material
- b. Primary and secondary coolant and coolant discharges
- c. Any ion exchange resins
- d. Any other radio-active material including but not limited to material made radio-active by irradiation or containing material made radio-active by irradiation.
- e. Any radio-active discharges into the air environment of any radio-active gasses.

Request is further hereby made for the furnishing to the undersigned of an estimate as to approximate cost of copying any and all relevant documents or things or information as described above.

Thanking you in advance for your cooperation in this matter and all courtesy extended to Mr. Gadler,

Sincerely,

WILLIAM J. GINSTER, J.D.
