PALISADES PLANT, CRANE HOIST CONTROL

Your letter dated July 28, 1976 transmitted IE Bulletin No 76-07 and requested information concerning crane hoist control circuit modifications for cranes handling spent fuel shipping casks. A review of the Palisades Plant spent fuel building crane determined that we have not made nor do we plan to make modifications to the hoist control similar to that described in IE Bulletin No 76-07. We conclude that no further action is required.

David A. Bixel  
Assistant Nuclear Licensing Administrator
