Re: Docket 50-255
License DPR-20
Palisades Plant
AO-75-8

Gentlemen:

On April 7, 1975 you were notified of an occurrence involving Palisades Plant cooling water discharge temperatures which were thought to be higher than the allowable limit. The occurrence was designated AO-75-8.

A review of our temperature measuring technique has disclosed the temperature measurements to be in error. The revised measurements show the discharge temperatures to be within the allowable discharge limit.

AO-75-8, therefore, has been canceled.

Yours very truly,

Ralph B. Sewell
Nuclear Licensing Administrator
