License Assistance Team

USNRC

2100 Renaissance Boulevard, Suite 100

King of Prussia, PA 19406

Subject: Amendment # 12: Radiation Safety Officer (RSO) change with License number 44-14149-02/03032893

Greetings License Assistance Team;

I am requesting that the license noted above be amended to reflect the new RSO change. The current RSO John Domey, job duties have changed and will no longer be the RSO. John J. Staab III has completed the Radiation Safety Officer Certification on-line course, given by Troxler Electronic Laboratories, Inc on 12/06/2018.

Section 12 of the current license indicates the Radiation Safety Officer for this License is John Domey.

I am requesting that John Domey be removed as RSO and to add John J. Staab III as the new RSO in Section 12:

The RSO change effective date will be the date of acceptance of this amendment.

Additionally, I am requesting that this address below, be deleted from section 10 of the license:

124 Richardson Road, Hardwick, Vermont

To the best of my knowledge, there has been no failing leak tests with any of the VTrans portable nuclear moisture/density gauges during my tenure at the Materials Testing and Certifications Laboratory, and while I have been the RSO.

The deletion of the address effective date will be the date of acceptance of this amendment.

Would you please send me a response that you have received this amendment request and how long you think it will take to be approved?

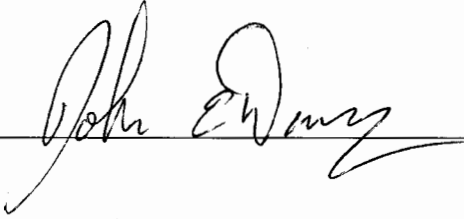

If you have any questions do not hesitate to contact me.
