CONVERSATION RECORD (continued)

SUMMARY: (Continued from page 1)

A clarification call requested by TN Americas LLC (TN) was held on January 9, 2019, between NRC staff and TN staff for the applicant (TN) to seek clarification on a request for additional information (RAI #1, Part 1).

TN staff requested clarification specifically on the following RAIs: 4-2, 4-6, 6-12 and 6-14
(Note that all RAIs are located in ADAMS Package ML18355A862)

- TN asked several clarification questions regarding the subject RAIs (all considered proprietary information with the exception of RAI 6-12).

- NRC staff provided responses to the clarification questions on the subject RAIs. TN indicated they understood the clarifications and that no further information was needed for TN to complete their responses.

- No changes were required to the RAIs in ML18355A862.

The applicant intends to provide responses within 60 days of December 21, 2018, to the 72-1042 docket to support the completion of the review of CoC 1042 EOS Amendment 1 application.

In addition, TN requested a status update on RAI 6-7, which NRC staff indicated in Part 1 of RAI #1 that RAI 6-7 would be issued at a later date. NRC staff indicated that the review of RAI 6-7 is ongoing and is currently under NRC management review. If RAI 6-7 is issued, it would be considered "Part 2" of the 1st round of the staff's RAIs.

Transmittal of the RAI responses should include the following:
