Mr. Braue,

I am reviewing your renewal application for License 10-23967-01E and we need you to provide the following information for your application:

1. Please provide the model numbers and activity (in microcuries of Krypton-85) for each lamp you plan to distribute under this license.
2. In your application dated 7/16/2018, page 4; item #8, it is stated, "Mr. Braue has been handling this product already for the past 15 years from an exempt lamp manufacturer." This same sentence is used in your Amendment 1 application dated October 2, 2008; please update this sentence to reflect the correct number of years of handling the product.
3. Since you provided only Amendment 1 documentation with no updates, please provide a statement that this application describes the program as it currently exists. If there have been changes to your program since Amendment 1 was granted, please provide those.

Please let me know if you have any questions.

Thanks,

**Don Lowman**
