

UNITED STATES  
NUCLEAR REGULATORY COMMISSION  
REGION IV  
1600 EAST LAMAR BOULEVARD  
ARLINGTON, TEXAS 76011-4511

January 17, 2019

Mr. Doug Bauder  
Vice President and Chief Nuclear Officer  
Southern California Edison Company  
San Onofre Nuclear Generating Station  
P.O. Box 128  
San Clemente, CA 92674-0128

SUBJECT: SOUTHERN CALIFORNIA EDISON COMPANY RESPONSE TO NRC  
SPECIAL INSPECTION REPORT 050-00206/2018-005, 050-00361/2018-005,  
050-00362/2018-005, 072-00041/2018-001 AND NOTICE OF VIOLATION

Dear Mr. Bauder:

On November 28, 2018, the U.S. Nuclear Regulatory Commission (NRC) cited Southern California Edison Company for three Severity Level IV violations that involved failures to: (1) identify conditions potentially adverse to quality for placement into your corrective actions program; (2) assure that operations of important to safety equipment were limited to trained and certified personnel or under direct supervision; and (3) provide adequate procedures for dry cask storage operations involving downloading operations. Inspection Report 050-00206/2018-005, 050-00361/2018-005, 050-00362/2018-005, 072-00041/2018-001 with enclosed Notice of Violation required you to respond in writing within 30 days (Agencywide Documents Access and Management System (ADAMS) Accession No. ML18332A357 and ML18341A172). You responded by letter dated December 26, 2018 (ML18362A148).

After reviewing the information you provided in your response to the Notice of Violation, we have concluded that your completed and proposed actions appear to adequately address the regulatory noncompliances described in the Notice of Violation. We will review your implementation of these corrective actions during a future inspection to determine whether full compliance has been restored and whether compliance will be maintained.

Please note that the two apparent violations that were described in Inspection Report 050-00206/2018-005, 050-00361/2018-005, 050-00362/2018-005, 072-00041/2018-001 are under review by the NRC and will be the subject of a predecisional enforcement conference that is scheduled to be held on January 24, 2019.

In accordance with 10 CFR 2.390 of the NRC's "Agency Rules of Practice and Procedure," a copy of this letter will be made available electronically for public inspection in the NRC Public Document Room or from the NRC's Agencywide Documents Access Management System (ADAMS), accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html>.

Sincerely,

/RA/

Janine F. Katanic, PhD, CHP, Chief  
Fuel Cycle and Decommissioning Branch  
Division of Nuclear Materials Safety
