INSTRUCTIONS TO STUDENTS

ACCEPTANCE: Individuals listed in Enclosure 1 have been accepted for participation in the Root Cause Workshop (G-205) course. This course is scheduled to be presented March 19-22, 2019, at the U.S. Nuclear Regulatory Commission (NRC) Technical Training Center (TTC). The TTC is located at 5746 Marlin Road, Suite 200, Osborne Office Center (near Eastgate Shopping Center) Chattanooga, Tennessee 37411-5677. The facility's telephone number is (423) 855-6500.

COURSE: Please see our Web site, <https://scp.nrc.gov/training.html> for the Tentative Course Schedule and note that this course has two components, a live webinar and classroom.

A functionality webinar will be conducted on March 11, 2019, from 1:00 – 1:30 p.m. ET. Attendance at this webinar is suggested.

A pre-course webinar will be held from 1:00 – 5:00 p.m. ET on Wednesday, March 13, 2019. The webinar will be conducted using Go-To-Training. You will receive an invite to the Go-To-Training session. You will need to register for the session. Attendance at this webinar is mandatory.

You will also be enrolled in the NRC's Collaborative Learning Environment (CLE). You will receive a separate login and password once you have been enrolled. All course reference material and assignments will be provided in the CLE.

You should receive the webinar invite two (2) weeks prior to the webinar and an invitation to test the Go-To-Training webinar platform to ensure your system is configured and staged to participate in the webinar. The Go-To-Training provides both computer audio (microphone and speakers) and a bridge-line number for use. If you decide to use your computer audio please ensure you have conducted the system testing that Go-To-Training platform provides.

This required webinar is a vital portion of the course, and failure to actively participate in the webinar will result in withdrawal from the course. Pre-course reading to prepare for classroom activities will be distributed after the webinar and must be completed prior to attending the classroom portion, so plan to spend several hours reading and assessing the material before the course. If you do not complete the pre-reading, you will have trouble completing the course.

The classroom portion of the course begins at 8:00 a.m. on Tuesday, March 19, 2019, and ends at 2:00 p.m. on Friday, March 22, 2019. This course simulates an onsite investigation and as such has documentation and reporting requirements so it is required that you bring your personal laptop computer to the classroom.

You must attend and participate in all course components in its entirety to receive credit for the course. If you have any questions concerning login or with the live webinar please contact Eric Riggs at (423) 855-6672.
