RE: Mail Control No. 610746

Subject: Amendment to NRC License # 07-16199-01/03010568

Dear Dr. Lawyer:

This is in reference to your letter dated December 27, 2018, regarding your request for additional information for our amendment to Nuclear Regulatory Commission License No. 07-16199-01, Docket No. 03010568.

1. Question: Need documentation regarding Dr. Barwe's specific experience using licensed materials.

Answer: Please see the attached document "Barwe_Isotope_Experience".

2. Question: Your request did not make any request to change license condition 11. This is the list of authorized users and the material that they are authorized. The current Radiation Safety Officer, Robert Mason, Ph.D., is listed as an authorized user. Should Dr. Mason be removed and Dr. Barwe added? If so, is Dr. Barwe being requested to be added for all licensed material or just certain isotopes? Please follow guidance in section 8.7.2 of NUREG-1556, Volume 7, Rev. 1, when responding.

Answer: Dr. Robert Mason should be removed as an authorized user. Dr. Barwe should be listed as Authorized User / Radiation Safety Officer. Attached is a form requesting the addition of Dr. Barwe as Authorized User for the use of the specific radioisotopes listed in the attached document. We are not requesting to add Dr. Barwe as Authorized User for other radioisotopes covered under our license, only the ones listed.

Please contact me if you have any questions or concerns. Thank you.

Sincerely,

Vicky L. Funanage, Ph.D.
Operational Vice President of Research, Nemours Children's Health System
Associate Professor of Pediatrics, Jefferson Medical College
Adjunct Professor, College of Health Sciences, University of Delaware

Statement of Training and Experience

Name: Sonali Barwe

Date: 10/17/07

Name of Authorized User: ~~Robert Mason~~

Raj

On the Job Training by an Authorized User:

	Yes	No	Where trained	Dates	Length (in hours)
Principles and Practices of Radiation Protection	X		UCLA	4/21/01	1
Radioactivity Measurement, Monitoring Techniques, and Instruments	X		UCLA	4/21/01	1
Mathematics and Calculations Basic to the Use and Measurement of Radioactivity	X		UCLA	4/21/01	1
Biological Effects of Radiation	X		UCLA	4/21/01	1

Training provided by a Radiation Safety Office:

	Yes	No	Where trained	Dates	Length (in hours)
Principles and Practices of Radiation Protection	X		UCLA	4/20/01	3
Radioactivity Measurement, Monitoring Techniques, and Instruments	X		UCLA	4/20/01	3
Mathematics and Calculations Basic to the Use and Measurement of Radioactivity	X		UCLA	4/20/01	3
Biological Effects of Radiation	X		UCLA	4/20/01	3

Formal courses (for credit):

Title/Description of Course	Credits	College/University	Dates and Duration

**Alfred I. duPont Hospital for Children
Nemours Biomedical Research
Radiation Safety**

Previous Isotope Handling Experience (if you need more room, attach a page):

Isotope	Amount handled per experiment	Estimated number of expts per yr	Dates	Where	Type of experiment
P-32	0.1 mCi	6	2001- 2007	UCLA	Southern/Northern blotting
H-3	0.05 mCi	3	2001- 2007	UCLA	CAT Assays
S-35	0.05 mCi	2	2001- 2007	UCLA	In vitro transcription, translation
Rb-86	0.1 mCi	2	2001- 2007	UCLA	Rubidium uptake assay
I-125	0.05 mCi	1	2001- 2007	UCLA	Antibody labeling

Have you taken the Alfred I. duPont Hospital Initial Radiation Safety Training Course? ____ Yes

Request to End Probationary Status of Sonali Barwe

Name the radioisotopes for which this person has received training from you:

Has this person received training from you in the following areas? Yes

Type(s) of radiation from the nuclide(s) used ^{35}S , ^{86}Rb
Energy of radiation for the nuclide(s) used ☒
Storage areas and areas of the lab where nuclides can be used ☒
Security of nuclide(s) ☒
External and internal hazards from the nuclide(s) ☒
Special handling problems of the nuclide(s) ☒
Proper use of survey equipment ☒
Proper contamination control techniques ☒
Proper disposal of radionuclide(s) ☒

Have you observed that this person handles radioactive materials safely and in accordance with NRC regulations and our rules and regulations? Yes

I request that the Radiation Safety Committee end the probationary status.

Current Status

Authorized User: Ayyappan Rajasekaran, PhD/Sigrid Langhans, PhD

RSO signature: 

Procedures:

	Date approved
Paracellular permeability assay	8/22/08(NRC)
Peptidase activity assay	8/22/08(NRC)
Proliferation assay	8/22/08(NRC)
Hybridization blotting	8/22/08(NRC)
Metabolic labeling of cultured cells	8/22/08(NRC)
Metabolic labeling of proteins	8/22/08(NRC)
Radioligand binding assay (not iodination)	8/22/08(NRC)
Rubidium uptake	8/22/08(NRC)

Radionuclides:

Nuclide	Chemical/Physical form	Maximum activity on hand at any one time	Date approved
H-3	Peptide; polysaccharide; nucleotide	40 mCi (20 each)	8/22/2008(NRC)
P-32	NTPs	40 mCi (20 each)	8/22/2008(NRC)
S-35	Amino acids	160 mCi (80 each)	8/22/2008(NRC)
I-125	Peptides	10 mCi (5 each)	8/22/2008(NRC)
Rb-86	Salt	10 mCi (5 each)	8/22/2008(NRC)

Participating personnel:

Names	Degree	Supervisor	Probation	Approved
Ayyappan Rajasekaran	Ph.D.			8/22/08(NRC)
Sigrid Langhans	Ph.D.			8/22/08(NRC)
Seung Joon Lee	Ph.D.	Sigrid	9/18/09	6/4/10
Sonali Barwe	Ph.D.	Raj	6/4/10	2/23/11
Justin David		Raj	-	5/18/11

Isotope Handling Experience at A I duPont Hospital for Children – Sonali Barwe, PhD

Isotope	Amount handled per experiment	Estimated number of experiments per year	Dates	Where	Type of experiment
⁸⁶ Rb	20 µCi	2	2011-2015	Alfred I. duPont Hospital for Children	Paracellular permeability assay
³² P	100 µCi	5	2011-2018	Alfred I. duPont Hospital for Children	DNA/RNA labeling for hybridization blotting
³⁵ S	100 µCi	2	2014-2018	Alfred I. duPont Hospital for Children	Metabolic labeling of cultured cells

**Alfred I. duPont Hospital for Children
Nemours Biomedical Research**

Requesting addition of Authorized User: Sonali Barwe, PhD for the radioisotopes listed below.

Dr. Sonali Barwe completed required radiation safety training and on-the-job training during her postdoctoral fellowship at UCLA (see Statement of Training and Experience attached). Additionally, she completed probationary period during which hands-on radioisotope use and training was documented (see Request to Probationary Status attached). Dr. Grace Hobson (RSO at the time) granted Dr. Barwe authorization to work with radioisotopes under the Authorized Users – Drs. Rajasekaran/ Langhans (see attachment dated Feb 27, 2013). Her isotope handling experience at A. I. duPont Hospital for Children is listed below. Dr. Barwe successfully completed the 40 hour technical short course entitled Radiation Safety Officer on Aug 31 2018. Therefore, Dr. Barwe has training and experience with use of radioactive materials that is appropriate to the types and forms of material of her proposed use.

Dr. Barwe's proposed type, form, quantity and use:

Type	Form	Quantity	Uses
³² P	NTPs	20 mCi	DNA/RNA labeling for hybridization blotting
³⁵ S	Amino acids	20 mCi	Metabolic labeling of protein/cells
³ H	Peptide, polysaccharide, nucleotide	20 mCi	DNA/RNA labeling for hybridization blotting
¹²⁵ I	Peptides	5 mCi	Antibody labeling
⁸⁶ Rb	Salt	5 mCi	Paracellular permeability assay
