Subject: Acceptance Review for Proposed Derived Concentration Guideline Levels
Date: Tuesday, January 22, 2019 1:30:00 PM

Dear Mr. McVay

By letter dated August 23, 2017 (Agencywide Documents Access and Management System [ADAMS] Accession Number ML17240A367), Sigma-Aldrich submitted a request for approval of proposed Derived Concentration Guideline Levels (DCGLs) for the Fort Mims Site. In addition, Sigma-Aldrich submitted three attachments in support of the proposed DCGLs: (1) Determination of Site-Specific DCGLs (ML17240A365), (2) Appendix A – Carbon 14 Partition Coefficient, Fort Mims Drive, Maryland Heights, MO (ML17240A368), and (3) Appendix B – Site-Specific RESRAD DCGLs Modeling (ML17240A366).

The NRC staff has performed an acceptance review of the submittal to determine if the application contains sufficient technical information to allow the NRC staff to conduct the detailed technical review. Based on this review, the NRC staff concludes the submittal contains information in sufficient detail to enable the staff to conduct its detailed review.

In accordance with Title 10 of the Code of Federal Regulations, Section 2.390 of the NRC's "Agency Rules of Practice and Procedure," a copy of this email will be available electronically for public inspection in the NRC Public Document Room or from the Publicly Available Records component of NRC's ADAMS. ADAMS is accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html>.

If you have any questions, please contact Dr. George Alexander at (814) 297-8385, or via email to George.Alexander@nrc.gov

Sincerely,
George Alexander
