SUBJECT

Discuss draft request for clarification of responses to the technical request for additional information (RAI) on Three Mile Island, Unit 2 (TMI-2) Independent Spent Fuel Storage Installation (ISFSI) renewal application

SUMMARY

Department of Energy Idaho Operations Office (DOE-ID) attendees: Steven Wahnschaffe, Scott Ferrara, Steve Ahrendts, Brian Gutherman, Jeffery Long, Chris Backus, Sarah Gibboney

NRC attendees: Kristina Banovac, Ricardo Torres, Mike Call, Caylee Kenny

A teleconference was held between NRC and DOE-ID representatives to discuss the draft request for clarification of the technical RAI responses (follow-up RAIs) on the TMI-2 ISFSI renewal application, which was provided to DOE-ID on January 16, 2019.

The purpose of the call was to: (1) ensure a common understanding of the follow-up RAIs; (2) ensure that the follow-up RAIs are not already addressed in the current submittal; (3) ensure the follow-up RAIs do not include proprietary information; and (4) identify an appropriate response date for DOE-ID to respond to the follow-up RAIs.

DOE-ID noted that it did not have any questions on the draft follow-up RAIs. DOE-ID noted that it will need until January 25, 2019 to determine a response date and if there is any proprietary information in the draft follow-up RAIs.

Continue on Page 2

ACTION REQUIRED (IF ANY)

DOE-ID will provide the response date to the NRC by January 25, 2019.

DOE-ID will determine if there is any proprietary information in the draft follow-up RAIs by January 25, 2019.

NRC will issue the request for clarification letter to DOE-ID after receiving the response date from DOE-ID.

CONVERSATION RECORD (continued)

SUMMARY: (Continued from page 1)

DOE-ID also noted that it may submit a final revised version of the license renewal application (LRA, Rev. 2) with its response to the follow-up RAIs. The NRC staff noted that it only needed the final version of the updated final safety analysis report (UFSAR) supplement (provided in Appendix C of the LRA), including any referenced tables, as revised through DOE-ID's response to the initial RAIs and follow-up RAIs. DOE-ID noted that it will consider what is clearer for its recordkeeping in determining whether to submit a complete revised LRA with the follow-up RAI response.
