Gentlemen:

I wish to thank Mr. Karl Abraham from the regional office for the information to Radio Station WTIC. The interest here in Salem Co is acute and perhaps a communication link to WTIC, from the NRC, would be in accord.

I read in Today's Sunbeam today a full power operating license for Salem #1 is expected this week by P.S.E. & G.

May I ask if the company is able to notify emergency planning people at the local + state level if any offsite problems are anticipated? Also it is my understanding the N.R.C. requires a full scale drill of these emergency procedures before an operating license is issued and requires them to test communications.

I question this as a resident of the PAZ expressing concern of the availability of workable communications.  
Sincerely, Mrs. Richard Hynes Jr.
