**Subject:** NRC Notification to the State of Florida Regarding Turkey Point License Amendments - Revise Reactor Core Safety Limit

Good afternoon Ms. Becker,

As a follow-up to my phone message from earlier this afternoon, the U.S. Nuclear Regulatory Commission (NRC) is about to issue license amendments for Turkey Point Nuclear Generating, Units 3 & 4. In accordance with Title 10 of the Code of Federal Regulations, Section 50.91(b), I am notifying you of the proposed issuance of these amendments.

Please reply if the State of Florida has comments on the following licensing action submitted to the NRC by Florida Power & Light Company, et al. (the licensee): "License Amendment Request 258, Revise Reactor Core Safety Limit to Reflect WCAP-17642-P-A

Revision 1" dated May 3, 2018 (Agencywide Documents Access and Management System (ADAMS) Accession No. ML18127B714).

The associated proposed no significant hazards consideration for this amendment request was published in the Federal Register on July 3, 2018 (83 FR 31185).

Your response is requested by February 7, 2019. If you have any questions, please call or e-mail me.

Thanks,
