

NEW JERSEY SENATE

DOCKET NUMBER

PROD. & UTIL. FAC. 50-27231

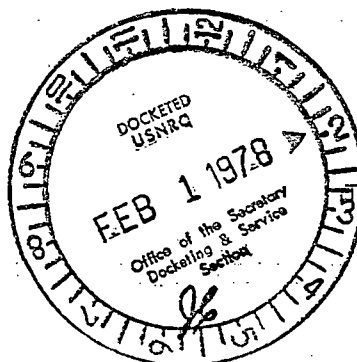

RAYMOND J. ZANE

SENATOR, 3RD DISTRICT

28 COOPER STREET

WOODBURY, NEW JERSEY 08096

609-845-2393

January 24, 1978

Victor Gilinsky, Commissioner  
Nuclear Regulatory Commission  
Washington, D.C. 20555

Dear Commissioner Gilinsky:

I am writing to you in reference to PSE&G's recent application to expand its spent fuel capacity at the Salem Nuclear Plant #1, located in Lower Alloways Creek, New Jersey.

Several of my constituents have contacted me, voicing their concern with PSE&G's request. They have also asked that the NRC hold public hearings so that area residents may voice their opinions in this matter, and also have many of their inquiries answered.

Therefore, I respectfully request that the NRC arrange a public hearing regarding the aforementioned PSE&G proposal, preferably to be held in the Salem County area.

Would you please inform me of any action that the NRC may take in this request?

Thanking you for your time and awaiting your response, I remain

Respectfully,

RAYMOND J. ZANE  
Senator, District 3

RJZ/cs

cc: Boyce H. Grier, Regional Director NRC
