Regulatory Docket File

Director of USNRC
U. S. Nuclear Regulatory Commission
Washington, D. C. 20555

Attention: Mr. George Lear, Chief
Operating Reactors Branch #3
Division of Operating Reactors

Gentlemen:

EMERGENCY POWER SYSTEMS FOR OPERATING
REACTORS

We have reviewed the safety evaluation and statement of staff positions relative to the emergency power systems for operating reactors and have discussed these positions with members of your staff for further clarification. We find that additional time will be required for us to fully evaluate the Salem Unit No. 1 systems and provide an adequate response. We expect to have a response available for your review by August 8, 1977.

Sincerely yours,

Frank P. Librizzi
General Manager -
