JAN 29 2019

Michael P. McConnell
Radiation Safety Officer
Andrews Engineering, Inc.
3300 Ginger Creek Drive
Springfield, IL 62711

Dear Mr. McConnell:

In the application dated November 6, 2018, you contacted the U.S. Nuclear Regulatory Commission and indicated that you wished to terminate your NRC radioactive material license. The NRC staff has reviewed the information provided. Based on its review, the staff has concluded that all licensable radioactive material has been removed from your facilities and residual radioactive material attributable to licensed activities does not exceed current NRC criteria.

Based on these conclusions no further remediation or actions with respect to NRC regulated material is required. Your facilities are suitable for unrestricted use and NRC license number 12-32079-01 is hereby terminated.

In accordance with Title 10 Code of Federal Regulations 2.390 of the NRC's "Rules of Practice," a copy of this letter and its enclosure will be available electronically for public inspection in the NRC Public Document Room or from the NRC's Agencywide Documents Access and Management System (ADAMS), accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html>.

If you have any questions, please contact me at (630) 829-9712.

Sincerely,

Laura B. Cender
