SUBJECT: WATERFORD STEAM ELECTRIC PLANT, UNIT 3 – CORRECTION TO
ISSUANCE OF AMENDMENT NO. 252 RE: ADOPTION OF THE RAPTOR-
M3G CODE FOR NEUTRON FLUENCE CALCULATIONS
(EPID L-2017-LLA-0399)

Dear Sir or Madam:

By letter dated July 23, 2018 (Agencywide Documents Access and Management System (ADAMS) Accession No. ML18180A298), the U.S. Nuclear Regulatory Commission (NRC) issued Amendment No. 252 to Facility Operating License (FOL) No. NPF-38 for the Waterford Steam Electric Station, Unit 3 (Waterford 3). The amendment was in response to your application dated November 28, 2017 (ADAMS Accession No. ML17332A898), as supplemented by letters dated December 7, 2017, and May 8, 2018 (ADAMS Accession Nos. ML17341B295 and ML18128A371, respectively). The amendment revised Section 4.3.3, "Analytical Methods," of the Waterford Updated Final Safety Analysis Report to incorporate the RAPTOR-M3G code for neutron fluence calculations.

The NRC staff recently identified an error on page 2 of the amendment authorization letter (Enclosure 1) that was inadvertently introduced during the preparation of the license amendment. Specifically, the error is in paragraph 2, which states the word "Plant" instead of "Station" in the full name of the Waterford Steam Electric Station, Unit 3. This correction letter acknowledges the discrepancy and revises paragraph 2 on page 2 of the amendment authorization letter for Amendment No. 252 for Waterford 3, as follows:

2. Accordingly, by Amendment No. 252, Facility Operating License No. NPF-38 is hereby amended to authorize revision to the Waterford Steam Electric Station, Unit 3, Final Safety Analysis Report as set forth in the licensee's application dated November 28, 2017, as supplemented by letters dated December 7, 2017 and May 8, 2018, and evaluated in the NRC staff's evaluation enclosed with this amendment.

Accordingly, we are enclosing a corrected page 2 of the amendment authorization letter for Amendment No. 252 to FOL NPF-38 that was issued by letter dated July 23, 2018. Please replace this page in your copy of the license amendment.

The correction is administrative in nature and does not affect the NRC staff's overall conclusions associated with the approval of Amendment No. 252.

We regret any inconvenience caused by this error. If you have any questions, please contact me at 301-415-1390 or via e-mail at April.Pulvirenti@nrc.gov.

Sincerely,

A handwritten signature in blue ink, reading "April L. Pulvirenti".

April L. Pulvirenti, Project Manager
Plant Licensing Branch IV
Division of Operating Reactor Licensing
Office of Nuclear Reactor Regulation

Docket No. 50-382

Enclosure:

1. Corrected Page 2 of the Amendment
Authorization Letter of FOL NPF-38
for Amendment No. 252
