To whom it may concern,

Please note that we took possession of one nuclear measuring device, serial number 8224921 manufactured and distributed by NDC, under NRC License Number 04-23264-01 . The source number is 103X and it is an AM-241 gamma point source with 5.55 Gbq of activity. The gauge was received on January 7, 2019 and installed on January 8, 2019. We took possession of this source under our General License registration number GL-704113-17. This source replaced Source Serial Number 13013, which was an AM-241 150 mCi source that was sent to NDC for disposal on December 19, 2018. Please let me know if you have any questions.

A handwritten signature in black ink that reads 'Joan DeMeyer'. The signature is fluid and cursive, with the first name 'Joan' and last name 'DeMeyer' clearly distinguishable.
