In the Matter of
FLORIDA POWER & LIGHT COMPANY
(Turkey Point Nuclear Generating Unit Nos. 3 and 4)
Docket Nos. 50-250-SLR/50-251-SLR

Dear Administrative Judges:

The NRC Staff ("Staff") wishes to advise you and the participants in this proceeding that the schedule for issuance of the draft Supplemental Environmental Impact Statement (SEIS) for subsequent license renewal of Turkey Point Units 3 and 4 has changed. As set forth in the attached letter, the Staff currently anticipates issuance of the draft SEIS in March 2019; in addition, the Staff expects to hold a public meeting on the draft SEIS in April 2019, and to close the draft SEIS comment period in May 2019.¹

Thank you for your consideration.

Respectfully,

Sherwin E. Turk
Counsel for NRC Staff

**SUBJECT: SCHEDULE REVISION FOR THE REVIEW OF THE TURKEY POINT
NUCLEAR GENERATING UNIT NOS. 3 AND 4 SUBSEQUENT LICENSE
RENEWAL APPLICATION (EPID NO. L-2018-LNE-0001)**

Dear Mr. Nazar:

Enclosed is a revised schedule for the review of the Turkey Point Nuclear Generating Unit Nos. 3 and 4, subsequent license renewal application. This schedule has been revised to reflect a minor delay that resulted from the federal government partial shutdown. The partial shutdown delayed the National Park Service (a cooperating agency on this review) from performing a review of those portions of the draft supplemental environmental impact statement (SEIS) for which they possess special expertise for environmental issues pertaining to the areas in and around Biscayne National Park. The issuance of the draft SEIS is changed from January to March 2019, the draft SEIS public meeting is changed from February to April 2019, and the end of the draft SEIS comment period is changed from March to May 2019. At this time, it is not clear if there will be an impact to the schedule for issuance of the final SEIS as this is highly dependent on the comments received on the draft SEIS. We will keep you apprised of any future impacts to the review schedule.

M. Nazar

If you have any questions regarding this matter, please contact Mr. David Drucker, Project Manager, for the environmental review of the Turkey Point license renewal application, by telephone at 301-415-6223 or by e-mail at david.drucker@nrc.gov.

Sincerely,

/RA/

Eric R. Oesterle, Chief
License Renewal Projects Branch
Division of Materials and License Renewal
Office of Nuclear Reactor Regulation
