SUBJECT RE: Westmoreland Coal Company Bankruptcy Notification					
<p>SUMMARY AND ACTION REQUIRED (IF ANY)</p> <p>Western Energy Company's parent company, Westmoreland Coal Company, filed for Chapter 11 Bankruptcy on October 9, 2018. Another licensee (Westmoreland Kemmerer, Inc.) listed the Western Energy Company - Rosebud Mine as a license that may have been affected by Westmoreland Coal Company's bankruptcy. I spoke to Western Energy Company's RSO, Ms. Nora Buchholz, who informed me that operations are continuing at the Rosebud mine as usual and that the fixed gauges and elemental analyzers in their possession are safe and secure. She also informed me that the Rosebud Mine is not one of the assets to be sold by Westmoreland Coal Company. I reminded Ms. Buchholz to notify me or Region IV if the status of the license changes at any point.</p> <p>After corresponding with OGC, I informed Ms. Buchholz via email that Western Energy Company was required to notify the NRC of their bankruptcy filing, as the company filed for bankruptcy in joint administration with their parent company.</p> <p>ACTION REQUIRED: Submit bankruptcy notification.</p>
