Dear Ms. Nieves,

This is in reference to your application dated December 18, 2018, requesting for renewal to Nuclear Regulatory Commission License No. 52-31348-01, Docket No. 03037873. In order to continue our review, we need the following additional information:

1. The only item received was just the NRC Form 313 and no additional pages. Since, the required information for renewal has changed, please complete the additional information as described in our guidance documents, [NUREG-1556, Volume 1, Revision 2, "Consolidated Guidance About Materials Licenses Program-Specific Guidance About Portable Gauge Licenses."](#) The easiest method for submitting a renewal is to complete the checklist in Appendix B. Please be sure to include a schematic of your storage location.
2. The protocol on how our licenses are written has changed since your last amendment. Please ensure that you request for the amount of material to be licensed is listed separately for each gauge model.
