KING OF PRUSSIA, PA 19406-2713

February 5, 2019

Randy Stanton
Radiation Safety Officer
QC Laboratories, Inc.
3628 Silver Star Road
Orlando, Florida 32808

SUBJECT: Q C. LABORATORIES, INC. - NRC INSPECTION NO. 15000009/2019001 AND
NOTICE OF VIOLATION

Dear Mr. Stanton:

This letter refers to our inspection conducted on January 14, 2019, at your temporary job site location at the Water and Power Authority Desalination Plant, St. Thomas, Virgin Islands. This inspection was a reciprocity inspection to review the safety and security of your source control while you conducted radiography activities in areas under NRC jurisdiction. This inspection examined activities conducted under your license as they relate to public health and safety, and to confirm compliance with the Commission's rules and regulations. Within these areas, the inspection consisted of selected examination of procedures and representative records, observations of activities, and interviews with personnel. Additional information was gathered during telephone calls with you on January 28, 2019, and during the inspection exit meeting with you and Derek James, on January 31, 2019.

Based on the results of this inspection, the NRC has determined that two Severity Level IV violations of NRC requirements occurred. These violations were evaluated in accordance with the NRC Enforcement Policy. The current Enforcement Policy is included on the NRC's Web site at <https://www.nrc.gov/about-nrc/regulatory/enforcement/enforce-pol.html>. The violations are cited in the enclosed Notice of Violation (Notice) because the violations were identified by the NRC.

You are required to respond to this letter and should follow the instructions specified in the enclosed Notice when preparing your response. If you have additional information that you believe the NRC should consider, you may provide it in your response to the Notice. The NRC review of your response to the Notice will also determine whether further enforcement action is necessary to ensure compliance with regulatory requirements.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter will be made available electronically for public inspection in the NRC Public Document Room located at NRC Headquarters in Rockville, MD, and from the NRC's document system, the Agencywide Documents Access and Management System (ADAMS), accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html>. However, the material enclosed herewith contains Security-Related Information as described above. Therefore, the material in the enclosures will not be made available electronically for public inspection in the NRC Public Document Room or

from the NRC's document system (ADAMS).

If you have any questions regarding this matter, please contact Randolph Ragland of my staff at 610-337-5083 or via electronic mail at Randolph.Ragland@nrc.gov.

Thank you for your cooperation.

Sincerely,

/RA/

Monica L. Ford, Chief
Commercial, Industrial, R&D
and Academic Branch
Division of Nuclear Materials Safety
Region I
