**Please check "Yes" or "No" for the performance requirements. Provide comments for all performance requirements checked "No" in COMMENTS section below.**

	INSPECTION PLANNING AND PREPARATION	Yes	No
1	Completed all site access requirements, information technology, and other continuing training requirements prior to inspection. Training did not "lapse" during inspection.		
2	Followed team leader direction regarding inspection plan requirements.		
3	Developed appropriate inspection plan for assigned area and submitted inspection plan, verbally or in writing, to the team leader.		
4	Prioritized inspection plan based on complexity, risk significance, and margin.		
5	Reviewed necessary design and licensing basis documents of the licensee's facility.		
6	Developed relevant questions for licensee based on review of documents within the design and licensing basis of the licensee's facility.		
7	Scheduled travel to ensure attendance at entrance/exit meetings and onsite inspection schedule established by the team leader.		

	INSPECTION ACTIVITIES	Yes	No
1	Performed an in-depth, objective review, appropriate to the design and licensing basis of the facility, to identify and develop inspection findings from NRC requirements and standards, or to determine there are no findings.		
2	Evaluated assigned sample selection based on technical discipline expertise and familiarity of NRC regulations and standards.		
3	Effectively used inspection time, altered inspection activities when appropriate, and was responsive to team leader direction regarding issues not to be worked upon.		
4	Exhibited professional speaking and listening skills during interactions with licensee and other team members.		
5	Provided daily <sup>1</sup> progress reports, written or verbal, to team leader by close of business during home office review period.		
6	Communicated issues or findings during team meetings (no surprises at exit meetings) to appropriately characterize the safety significance of the issues.		

---

<sup>1</sup> Or an appropriate frequency determined by the team leader.

	INSPECTION ACTIVITIES	Yes	No
7	Presented information accurately to support findings in a clear and professional manner to the team and licensee, when necessary.		
8	Provided written notes, within one business day of identifying a deficiency, which include the issue of concern, NRC or industry requirement not met, and recommendation on minor or more-than-minor safety significance of noncompliance.		
9	Followed NRC information security requirements. Appropriately used NRC provided e-mail account to send or receive sensitive information (information that is not releasable to the public).		

	INSPECTION DOCUMENTATION	Yes	No
1	Followed team leader direction/sample report and documents reviewed, as required to comply with IMC 0611, <i>Power Reactor Inspection Reports</i> .		
2	Provided report input which clearly supported the issuance of inspection findings and violations using factual information, dates, and appropriate references to design and license basis of the facility.		
3	Provided report input in electronic format acceptable to team leader within seven calendar days after the inspection exit date <sup>2</sup> .		

## COMMENTS

(Provide comments for all attributes checked “No”. When a performance requirement is not met, the deficiency will be first brought to contractor inspector's attention by the team leader. Significant or repetitive deficiencies will be brought to the attention of the contractor for resolution by the NRC COR.)

---

<sup>2</sup> The team leader may extend this due date if additional reviews are necessary.
