

11<sup>th</sup> February 2019

Attention: William Allen  
Project Manager Licensing Branch  
Division of Spent Fuel Storage and Transportation  
Office of Nuclear Material Safety and Safeguards  
US Nuclear Regulatory Commission  
Washington DC 20555-0001

Docket Number: 71-9338  
TAC No: L24678

**Subject:** Request for Renewal of CoC No. 9338 for the 3977A Package

Dear Mr Allen,

The CoC, USA/9338/B(U)-96 Revision 2, for Croft package 3979A expires on the 31st March 2019. Please accept this communication as a formal request for timely renewal of this certificate to allow the continued use of this package.

There have been no changes to the use or design of the package since the last approval and no further information other than that already presented has been included.

Thank you.

Kind regards,

**Alex Ferguson**

Licensing Director
