KING OF PRUSSIA, PA 19406-2713

February 1, 2019

Ethan Foxman, M.D.  
Board Member  
Connecticut Imaging Partners, LLC  
111 Founders Plaza, Suite 400  
East Hartford, CT 06108

SUBJECT: CONNECTICUT IMAGING PARTNERS, LLC, CONSENT TO TRANSFER  
LICENSE, MAIL CONTROL NO. 602654

Dear Dr. Foxman:

By the letters dated February 22 and 26, 2018 (ML18082B065), Jefferson Radiology, P.C. submitted to the U.S. Nuclear Regulatory Commission (NRC) a request for consent for two separate transactions that constituted a direct license transfer of NRC Materials License No. 06-28502-01. Based on the information provided, the NRC understands that initially, Mednax Health Solutions purchased 100% holdings of Jefferson Radiology, P.C. and then secondarily, Hartford Healthcare Corporation (HHC) became the majority owner at 51% and Mednax retained 49% interest of the licensed operations now represented by Connecticut Imaging Partners, LLC, and being managed by Jefferson Radiology, P.C. As such, control of Jefferson Radiology, P.C. was directly transferred to Connecticut Imaging Partners, LLC. We further understand that this transfer will not result in any changes to the licensed materials, persons using the licensed material, location of use, or persons responsible for the radiation safety program.

This was effectively a request for after-the-fact approval of a direct license transfer that resulted from transactions that occurred on September 27, 2017, and January 5, 2018, without receiving written consent from the Commission beforehand, as required by NRC regulations and the Atomic Energy Act of 1954, as amended. This is an apparent violation of NRC requirements; enforcement is being pursued separately.

Based on the above understandings, as more fully detailed in the enclosed Safety Evaluation Report, which documents the NRC staff's review of the request, and in accordance with 10 CFR 30.34, the NRC consents to the transfer. Please note that since this transaction already occurred, no other action is required. If you have any questions regarding this letter, please contact Robin Elliott at (610) 337-5076 or by e-mail at [robin.elliott@nrc.gov](mailto:robin.elliott@nrc.gov).

Future changes in the licensee's name, licensed use, licensed materials, licensed location, or persons responsible for licensed material require submission of a request to amend the license. NRC approval must be received *prior* to implementation of the proposed change.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter and its enclosure will be available electronically for public inspection in the NRC Public Document Room or from the NRC's document system (ADAMS). ADAMS is accessible from the NRC Web Site at: <http://www.nrc.gov/reading-rm/adams.html>.

Thank you for your cooperation.

Sincerely,

Donna M. Janda, Chief  
Medical and Licensing Assistance Branch  
Division of Nuclear Materials Safety  
Region I
