

memorandum

Date: February 6, 2019

Subject: Notification of the Facility Director Change for the Nuclear Regulatory Commission
Regulated Independent Spent Fuel Storage Installations (CLN190659)

To: John Zimmerman, Deputy Manager
Idaho Operations Office

50-267/289/320

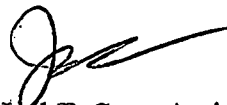

72-09

This memorandum is to inform you of the changes to the Nuclear Regulatory Commission (NRC) Project Management organization for the operation and management of the Fort Saint Vrain, Three Mile Island Unit 2, and Idaho Spent Fuel Facility NRC Licenses. The change noted below for the NRC project management organization was effective January 1, 2019.

- Steve Ahrendts is replacing Scott Ferrara as the Facility Director for the NRC Licensed Facilities.

I have reviewed the qualifications of Mr. Ahrendts and find them acceptable to perform as the Facility Director for the NRC Licensed Facilities. Mr. Ahrendts was previously the Facility Director for the NRC Licensed Facilities, maintains his Spent Fuel Team Supervisory role, and has completed the qualification standard for this position.

Please contact me should you have any questions in this regard.

Joel T. Case, Assistant Manager
for Facility and Material Disposition

cc: NRC Document Control
Bernard White, NRC Project Manager
Lee Brookhart, NRC Region IV
David Holman, NRC Region IV
David Bland, STI
