

UNITED STATES
NUCLEAR REGULATORY COMMISSION
WASHINGTON, D.C. 20555-0001

February 19, 2019

Ms. Tami Moe, Director
Octavia Fellin Public Library
115 W. Hill Ave.
Gallup, NM 87301

SUBJECT: REQUEST TO LIBRARY TO MAINTAIN THE UNITED NUCLEAR
CORPORATION SITE SOURCE MATERIALS LICENSE AMENDMENT
REQUEST (DOCKET NUMBER: 40-8907)

Dear Ms. Moe:

The U.S. Nuclear Regulatory Commission (NRC) received a license amendment request from United Nuclear Corporation (UNC) to amend its Source Materials License Number SUA-1475 to bring Northeast Church Rock mine waste onto the Church Rock mill site located in McKinley County, New Mexico. We are reaching out to the Octavia Fellin Public Library to request its assistance in establishing an information repository and maintaining reference documents at the library. The documents are associated with the NRC's environmental review of the UNC site source material license amendment request.

As part of the review of UNC's request, the NRC will make available to the public various documents regarding the project and the NRC's review process. This letter transmits a hard copy of the environmental report and a DVD of the full application. Electronic versions of these documents are available in the NRC's Agencywide Documents Access and Management System (ADAMS), accessible via the internet at: <http://www.nrc.gov/reading-rm/adams.html> using the ADAMS Accession Numbers ML18267A387 and ML18267A235. We are kindly requesting that copies of all documents on file be kept at the library for a period of three (3) years, if possible, for the public's use. Additional documents will be sent to you as they become available.

We appreciate your willingness to assist the public in participating in the NRC's environmental review process. If you have any questions, please contact Ms. Ashley Waldron at 301-415-7317, or by e-mail at Ashley.Waldron@nrc.gov.

Sincerely,

/RA/

Cinthya I. Román, Chief
Environmental Review Branch
Division of Fuel Cycle Safety, Safeguards,
and Environmental Review
Office of Nuclear Material Safety
and Safeguards
