

**UNITED STATES  
NUCLEAR REGULATORY COMMISSION**

REGION III  
2443 WARRENVILLE RD. SUITE 210  
LISLE, ILLINOIS 60532-4352

February 15, 2019

Mr. Bryan C. Hanson  
Senior VP, Exelon Generation Company, LLC  
President and CNO, Exelon Nuclear  
4300 Winfield Road  
Warrenville, IL 60555

**SUBJECT: NRC PARTICIPATION IN THE CLINTON POWER STATION EMERGENCY  
PREPAREDNESS EXERCISE**

Dear Mr. Hanson:

The U.S. Nuclear Regulatory Commission (NRC) routinely participates in licensees' emergency preparedness exercises to ensure that the NRC's Incident Response capabilities are effectively maintained and to provide licensees an opportunity to exercise the interface with the NRC during response to an incident at their sites. The purpose of this letter is to inform you of our intent to participate in the Clinton Power Station Emergency Preparedness Exercise that is scheduled to occur on March 19, 2019. Currently, the extent of participation will involve both headquarters and regional response staff.

During the exercise, the NRC's response will involve activating our Region III Incident Response Center, activating the Headquarters Operations Center, and dispatching an NRC Site Team, including our resident inspectors, to your emergency response facilities. If our scope of participation changes, we will contact your emergency preparedness staff to discuss the changes.

We are coordinating with your staff to schedule pre-exercise outreach activities that we offer to our licensees. The emergency response coordinators will conduct a presentation and provide training materials to assist your staff in exercising with the NRC. The NRC outreach efforts, conducted by my staff, are tools to further reinforce concepts related to NRC incident response activities.

If you have any questions concerning our participation, please contact Brent Boston, Region III Emergency Response Specialist at 630-829-9764, Desiree Smith, Region III Emergency Response Coordinator at 630-829-9853, or me at 630-829-9729.

This letter will be made available for public inspection and copying at <http://www.nrc.gov/reading-rm/adams.html> and at the NRC Public Document Room in accordance with 10 CFR 2.390, "Public Inspections, Exemptions, Requests for Withholding."

Sincerely,

*/RA/*

Ann Marie Stone, Team Leader  
Technical Support  
Division of Reactor Projects
