Subject: Follow-up re January 21, 2019 exemption request
Date: Tuesday, February 19, 2019 4:40:00 PM

Hello Mr. Brown,

I'm writing with regards to the exemption request you submitted, dated January 21, 2019, in which you requested that previously approved exemptions be approved for Amendment No. 6 for Certificate of Compliance No. 1015 for the NAC-UMS system.

As I mentioned in our phone call, I am the project manager assigned to your request. I am confirming that you need the request approved such that you can implement the change for next winter. Therefore, the typical time frame of about 6-7 months should be fine for your operational needs. I will keep you informed of any schedule complications.

You can reach me via the contact information below.

Thank you,

Torre
